SACHIN SILVA

Software Engineer - Intern

As a Creative UX/UI designer and aspiring web developer currently pursuing a Bachelor's degree in Computer Science and Software Engineering at the Sri Lanka Institute of Information Technology (SLIIT), I am looking for an internship to build my skills while contributing to the industry and organization's growth.

EDUCATION

Sri Lanka Institute of Information Technology   2022- Present

B.Sc. (Hons) Computer Science and Software Engineering

Dharmasoka College Ambalangoda   2017

G.C.E. Advanced Level

PROJECTS

Water Villa World – Luxury Travel Platform

Designed and developed a responsive website for Water Villa World, a platform offering luxury travel experiences in stunning global locations. Collaborated with travel experts to create engaging and visually appealing user interfaces.

Figma, HTML, CSS, Bootstrap

Saral.edu UI Design – Dashboard & Chat Assistant

Designed a high-fidelity user interface for Saral.edu, a platform enabling students and researchers to analyze research papers using AI. The design includes a Dashboard for managing projects, resources, and workspaces, and a Chat Assistant interface for interacting with AI, featuring resource selection, pinned chats, and citation tracking.

Figma

Website Redesign for Theravada Buddhist Temple

Redesigned a website dedicated to accessing and preserving Theravada Buddhist texts and cultural articles, improving user experience and accessibility. Focused on clean navigation, intuitive layout, and responsive design.

Figma
